PROFILE

I'm Youssef Mohammed, a front-end developer with two years of experience specializing in React.js and Next.js. I'm currently studying at the Faculty of Computer Science, Mansoura University. I combine my academic knowledge with practical experience to build dynamic and responsive web applications. I have a passion for creating user-friendly interfaces and delivering excellent user experiences, I'm always eager to learn and grow in the ever-evolving field of web development.

EDUCATION

2nd, Faculty of Computer Science

2023 - 2027

Mansoura University

The Faculty of Computer Science at Mansoura University provides top-tier education in computer science, emphasizing practical learning, research, and innovation to prepare students for challenges in the technology industry. I have a passion for programming and achieved an 87% score in secondary school, which inspired me to join this faculty.

- | | | |
|--------------|----------------|-------------|
| • HTML 5 | • Tailwind CSS | • Libraries |
| • CSS 3 | • ShadCn | • React.js |
| • Javascript | • Git | • Next.js |
| • Typescript | • Github | • Prisma |
| • Bootstrap | • APIs | • MongoDB |

PROJECTS

• **Matbook (Social media website)**

This is the biggest project I have ever worked on. It is a full-stack social media website with more than 30 features, including optimistic updates, a follow system, a like system, a comment system, a replies system, a notification system, bookmarks, and more.

Repo : <https://github.com/YoussefMohammed93/Matbook>

Demo : <https://matbook-matrix.vercel.app>

• **Slack (Clone)**

This is a Slack clone website built with Next.js, Convex DB, and other technologies. It includes features such as groups or workspaces, where users can create workspaces and invite other members via an invite link functionality and another features ...
