EDUCATION

Mansoura University	Mansoura, Egypt
Faculty of Computer Science, Mansoura University	*Oct. 2023 – Expected Jul. 2027*

EXPERIENCE

Frontend Vice Head – IEEE Mansoura Computer Society Chapter Dec. 2024 – Present

- Mentored a team of over 18 members, providing technical guidance and support in frontend development.
- Led the development and maintenance of the chapter's official website, ensuring responsiveness and usability.
- Provided and coordinated open-source projects to foster learning and community collaboration.

PROJECTS

Linkup - Fullstack Social Media Platform | *Next.js, Typescript, Convex* Mar. 2025 – Apr. 2025

- This social media platform allows users to connect, share content, and interact with each other. It features user authentication, post creation, real-time updates, and a responsive design that works across all device sizes.

Taskmate - Fullstack Tasks Management System | *Next.js, Typescript, Convex* Feb. 2025 – Mar. 2025

- This task management application allows users to create, edit, and delete tasks. It features real-time updates, user authentication, and a responsive design that works across all device sizes.

Frontend Hub | *Next.js, Typescript, Shadcn UI, Convex* Jan. 2025 – Feb. 2025

- Creating an intuitive learning experience that caters to developers of all skill levels while organizing complex technical content in an accessible way. Ensuring content remains up-to-date with rapidly evolving frontend technologies.

Notion Clone | *Next.js, Typescript, Convex, Tailwind CSS* Nov. 2024 – Dec. 2024

- This Notion clone application allows users to create, edit, and delete notes, notebooks, and tags. It features real-time updates, user authentication, and a responsive design that works across all device sizes.

Voxa Chat Application | *React Native, ConvexDB, Real-time Messaging* Apr. 2025 – May. 2025

- Voxa Chat is a mobile messaging application featuring chat screens, contact lists, and a streamlined onboarding flow. The app includes interactive message features like swipe replies and long-press menus, along with robust image handling capabilities including in-message display and full-screen viewing.

My Portfolio | *Next.js 15, Typescript, Shadcn UI*

- This project showcases the major frontend applications I've developed over the past two years, reflecting my experience with React, Next.js, and TypeScript.

SKILLS

Frontend

HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Shadcn, TypeScript, React.js, Redux, Zod, React Hook Form, Next.js, Framer Motion, Three.js, Vite, Sass, TanStack Query

Backend

Node.js, MongoDB, ConvexDB, Firebase, Git, GitHub, npm, pnpm, Vercel

Mobile

React Native, Expo

Extracurricular Activities

PR & FR Member – CIS Student Activity
Mansoura University

2024 – Present

Mansoura, Egypt

- Organized and promoted various tech events and hackathons to engage the student community.
- Collaborated with sponsors and partners to support event logistics and outreach.
- Contributed to planning and executing promotional campaigns across different channels.

PR & FR Member – Pascal Academy
Mansoura University

2024 – Present

Mansoura, Egypt

- Planned and managed outreach for academy events and awareness sessions.
- Assisted in building partnerships to support workshops and competitions.
- Helped increase student participation through effective communication strategies.

Competitions & Awards

DevFest Mansoura Hackathon
Google Developers Group Delta

Dec. 2024

- 12th Place – Participated as the Frontend Developer in a team project to build a responsive carpooling web application. Ensured pixel-perfect implementation aligned with the provided UI design, optimized for all screen sizes.
